DEFINITIONS

Home regions: Stockholm, Gothenburg, Mallorca and Helsinki

Choose your Home Region in which you will have access to the boat model included in your membership plan. You can always access Agapi boats in other regions through one of the following options:

1. For a fixed cost per day (One-time Tokens),
2. By purchasing "Access to all regions" add-on to your membership
3. By subscribing to our "Platinum membership level".

Unlimited number of boating days

There is no limitation to the number of days you can use the boat. The number of slots you can have booked in the calendar at the same time depend on the number of Yearly Tokens in your membership. If you want additional bookings, you can buy One-time Tokens.

Yearly Tokens

A Yearly Token can be used to book a specific boat for a slot of 3-24 hours in the calendar. Once the Yearly Token is used (after doing the check-out), or if it is cancelled, it can be used again to book a new 3-24hr slot.

Spontaneous bookings slots

You can always do one (1) spontaneous booking at a time within 48 hours of departure.

Captains in family

Depending on your membership plan, more captains within your family can be added. To be eligible as a captain, the candidate should be 18+ years old, certified by Agapi, and written on the same postal adress.

Full service docking

Full service docking includes pre-heating of the boat before you arrive, provided you have pre-ordered this when booking the boat. Also included in "Full service docking" is cleaning of the boat and putting the canvas back on when you return to dock, for which you need to return the boat at least 1 hour before end of your booking slot. This service is currently only available in Stockholm and Mallorca on weekdays 9.00-17.00.

Fuelling service

According to our booking rules you should always leave the boat with at least 50% fuel level. But, the Fuelling Service allows you to return

the boat at any level of remaining fuel in the tank, Fuel cost is invoiced separately. To enjoy this service you need to return the boat at least 1 hour before end of your booking slot. This service is currently only available in Stockholm and Mallorca on weekdays 9.00-17.00.

Water toys

Our water toys option includes access to Agapi's accessories such as water skis, wakeboard and paddle board. Accessories differ between regions.

Agapi High Speed training

The Agapi High Speed training is a three hour course with experienced licensed Agapi instructors where you learn how to handle and manoeuvre Agapi boats at high speeds.

Agapi Boat PT

The Agapi Boat PT includes three hours on the boat with an experienced instructor or "Boat Personal Trainer". These three hours can be allocated to whatever tasks, manoeuvres and training the member wishes to learn or improve. The member is responsible for booking the boat and paying for fuel.

Mallorca region

Port Cala Nova in Palma connects us to the Mediterranean Ocean and is beautiful all year round. There is a price premium of 1.500 EUR for all members that wish to enjoy boating there. We promise you it's worth it!

Activation Package

The activation package entitles you to attend the Agapi Club Certification which is a mandatory introductory on-boarding training, where we go out at sea with the boat and go through all Club routines.

One-time Token

Buy a one-time token to either book a booking slot (3-24 hours) outside your home region, or to book a model not included in your membership, or to book more slots in addition to what is possible with your Yearly Tokens within your membership. This is helpful in case you would like to be out for weeks instead of the normal shorter trips. Or if you are visiting another region and would like to go boating there. The booking slots are consumed once they are used and pricing depends on boat, region and season.
