

AGAPI REDEFINES THE BOATING WORLD AGAIN!

Once again, Agapi's innovative combined concept of a high performance RIB and aesthetic cabin cruiser redefines what demanding boaters expect from a boat. Now, the market gets a new benchmark on new ways of owning a boat and how to explore new waters with a boat of your own. Furthermore, how to enjoy a boat life without having to own a boat.

'We constantly think about how we can make boating easier and increase time on magical waters for Agapi boaters. We truly believe there is a movement towards non-traditional forms of having and using a boat. From owning and maintaining to experiencing and enjoying. Boaters will always want to have access to the unique freedom that only boating can deliver, and a growing number of us want to also enjoy boating outside our primary home. Trend shows that there is an increasing number of boaters that don't want to own a boat in order to enjoy it. Agapi is created to be in the forefront for demanding boaters and their needs. That is the reason why we now release our ownership and lifestyle solutions.' Alejandra Levinas Asplund, owner and co-founder of Agapi Boating.
