| HIGH SEASON (16 jun - 15 aug) Stockholm, Helsinki and Gothenburg Mallorca | 200 EUR 250 EUR | 300 EUR 350 EUR |

DEFINITIONS

Home regions: Stockholm, Gothenburg, Mallorca and Helsinki

Choose your home region in which you will have access to the boat model included in your membership plan. You can always access Agapi boats in other regions (not included in Base membership) through one of the following options:

- For a fixed cost per day (One-time Tokens).
- By subscribing to our Gold or Platinum memberships.

Unlimited number of free boating days

There is no limitation to the number of days you can use the boat. The number of days you can have booked in the calendar at the same time depends on the number of Yearly Tokens in your membership. If you want additional bookings or book longer time periods, you can buy One-time Tokens.

Spontaneous booking

Spontaneous booking is included in your home region for all membership levels. You can always do one (1) spontaneous booking at a time within 48 hours of departure. You can choose to book the boat in slots of 3-24 hours.

Yearly Token (for better planning ahead, can be re-used)

A Yearly Token is our name for a "planned or pre-reserved" booking slot (3-24 hours). Different from a Spontaneous booking, a Yearly Token gives you the chance to plan in advanced and you can buy as many as you want (normally 2 or 3). The number of Yearly Tokens is equivalent to how many days you can book in advance to really secure access on a specific date or to a specific boat. Once that booking is used, the Yearly Token is liberated so you can re-use it to plan for a new booking.

One-time Token (for extra days or other locations, cannot be re-used)

One-time Tokens are great if you want to do "one-time extra bookings" at a given date/s, on another location or with a boat not included in your membership plan. One-time Tokens are useful if you for example, want to book the boat for an entire week or month. The difference with a Yearly Token is that once a One-time Tokens is used, it is considered "consumed" and you cannot re-use it. The price for a One-time Token depends on the season, region and boat type (please see price list).

Cleaning service

The boats are cleaned regularly to assure constant top conditions of the boats. The basic rule is to return the boat in the same or better condition than when you got onboard. This service gives the member the freedom to leave the boat for cleaning to Agapi's staff. This however, requires a pre-notification when booking the boat to allow the service team to block the boat for cleaning. Note that this service is NOT available 24/7 so please check Agapi's local rules and always ensure a confirmation from Agapi on your booking request.

Fuelling, docking, catering and pre-heating services

Fuelling, according to our booking rules you should always leave the boat with at least 50% fuel level. But, the fuelling service allows you to return the boat at any level of remaining fuel in the tank. Fuel cost is charged separately. The Docking service means that we take care of the boat in case you are in a hurry at arrival. To enjoy this service you need to return the boat at least 1 hour before ending of your booking slot. Catering consists of drinks and snacks or a delicious meal onboard delivered straight to your boat prior to departure. Pre-heating is a service mainly for members in the northern hemisphere when you want to find a warm and cozy boat at your arrival. Some of these services are currently only available in certain regions and in full service Agapi Centers, during normal working hours and they all require a pre-booking and confirmation from the Agapi Team.

Water sport equipment

Our water sport equipment includes access to Agapi's accessories such as water skis, wakeboard and paddle board. Accessories differ between regions.

Number of Captains per membership

Depending on your membership plan, more skippers within your family can be added. To be eligible as an Agapi Club Captain, the candidate should be 18+ years old, certified by Agapi, and written on the same postal address as the main member indicated in the contract.

Agapi High Speed training

The Agapi high speed training is a three hours course with one of our experienced boating instructors who will teach you how to handle and maneuver Agapi boats at high speeds.

Agapi Boat PT (personal trainer)

The Agapi Boat Personal Trainer (Boat PT) includes three hours on the boat with an experienced instructor. These three hours can be allocated to boating skills the member wishes to learn or improve. The member is responsible for booking the boat and paying for the fuel.

Region Mallorca

Port Calanova in Palma and Porto Cristo on the east coast connect us to the Mediterranean Sea and offers beautiful boating all year round. There is a price premium of 2.000 EUR for all members due to higher mooring costs in Mallorca.

Onboarding training

The onboarding training is mandatory and includes 3 hours at sea with the boat and an experienced Agapi instructor and 1 hour in the office to revise The Agapi Way, our manual that covers all the routines and procedures for our members.
