HIGH SEASON (June to September) Stockholm, Gothenburg and Helsinki Mallorca	200 EUR 250 EUR	300 EUR 350 EUR

DEFINITIONS

Boating regions: Stockholm, Gothenburg, Mallorca & Helsinki
Choose the boating region in which you will have access to the boat model included in your membership plan. You can always access Agapi boats in other regions by buying an Extra day.

Spontaneous day (unlimited)

Spontaneous days are unlimited and included in all membership levels and all regions. You can always do one (1) spontaneous booking at a time within 48 hours of departure. You can choose to book the boat in slots of 3-24 hours.

Planned day (re-usable)

Different from a Spontaneous day, a Planned day gives you the chance to plan in advanced to secure access on a specific date or boat model. The number of Planned days included depends on the membership level. Once used, the booking is liberated so you can re-use it to plan for a new day ahead.

Extra day (cannot be re-used)

Extra days are not included in the membership plans but you can buy as many as you want to. This is great if you want to do book an Extra day at a given date or another location or with a boat not included in your membership plan, or if you for example, want to book the boat for an entire week or month. Important to note that once an Extra day is used, it is considered "consumed" and you cannot re-use it. The price of an Extra day depends on the season, region and boat type.

Cleaning service

The boats are cleaned regularly to assure constant top conditions of the boats. The basic rule is to return the boat in the same or better condition than when you got onboard. This service gives the member the freedom to leave the boat for cleaning to Agapi's staff. This however, requires a pre-notification when booking the boat to allow the service team to block the boat for cleaning. Note that this service is NOT available 24/7 so please check Agapi's local rules and always ensure a confirmation from Agapi on your booking request.

Fuelling, docking, catering and pre-heating services

Fuelling, according to our booking rules you should always leave the boat with at least 50% fuel level. But, the fuelling service allows you to return the boat at any level of remaining fuel in the tank. Fuel cost is charged separately. The Docking service means that we take care of the boat in case you are in a hurry at arrival. To enjoy this service you need to return

the boat at least 1 hour before ending of your booking slot. Catering consists of drinks and snacks or a delicious meal onboard delivered straight to your boat prior to departure. Pre-heating is a service mainly for members in the northern hemisphere when you want to find a warm and cozy boat at your arrival. Some of these services are currently only available in certain regions and in full service Agapi Centers, during normal working hours and they all require a pre-booking and confirmation from the Agapi Team.

Water sport equipment

Our water sport equipment includes access to Agapi's accessories such as water skis, wakeboard and paddle board. Accessories differ between regions.

Number of skippers per membership

Depending on your membership plan, more skippers within your family can be added. To be eligible as an Agapi Club Captain, the candidate should be 18+ years old, certified by Agapi, and written on the same postal address as the main member indicated in the contract.

Agapi High Speed training

The Agapi high speed training is a three hours course with one of our experienced boating instructors who will teach you how to handle and maneuver Agapi boats at high speeds.

Agapi Boat PT (personal trainer)

The Agapi Boat Personal Trainer (Boat PT) includes three hours on the boat with an experienced instructor. These three hours can be allocated to boating skills the member wishes to learn or improve. The member is responsible for booking the boat and paying for the fuel.

Region Mallorca

Port Calanova in Palma and Porto Cristo on the east coast connect us to the Mediterranean Sea and offers beautiful boating all year round. There is a price premium of 2.000 EUR for all members due to higher mooring costs in Mallorca.

On-boarding training

The on-boarding training is mandatory and includes 3 hours at sea with the boat and an experienced Agapi instructor and 1 hour in the office to revise The Agapi Way, our manual that covers all the routines and procedures for our members.
